

FRIDAY, JULY 1, 1911.

## GAZETTE CLEANINGS.

Business is picking up. Las Vegas will have gas next week. The Bon Ton Saloon is fitting up a neat club room. J. W. Love is now receiving large amounts of fresh hay. Charlie Dyer will move into his new residence next Monday or Tuesday. The shower was a God send, or anything the revised edition will sanction. Marwede, Brumley & Co.'s new building is rapidly approaching completion. The Park Meat Shop will be the new one which F. Gordon will start on the plaza just above the Pacific House. The Trinidad Knights of Pythias have written to this city to secure the services of our brass band for the Fourth. Mr. Bolton proposes to open up a first class restaurant in Dold's black. He will serve dinner first on the 4th of July. The Central Bank of Albuquerque yesterday removed from the old town to New Albuquerque. That institution is in a most flourishing condition. The rain storm yesterday afternoon was good but brief. It was likely the prelude to a coming deluge. The weather is hot enough to warrant it. We were shown a bill of sale by Chas. Ilfeld for 400 head of cattle bought by him from Mr. S. Brazil of Fort Sumner. Mr. I. will continue to hold them on the old range. A large number of sheep have been purchased by new comers who intend to engage in the ranch business. There is evidently a correct belief that ranching pays. It is reported that Paddy Ryan who shot Charles Walker, the Deputy U. S. Marshal at San Marcial a few days ago was put off the train at Ortiz station night before last. Dysentery among the children seems to be contagious and is ascribed by physicians to unhealthy drinking water. The water works would be an acceptable convenience this hot weather. The inhabitants of Greeley, Colorado, have formed a mutual protective association against hail storms. Hail appears to be as destructive to crops along the base of the mountains as chintz bugs are in the States. "Six-Shooter" Smith, who undertook to run a rival town to that of the A. T. & S. F. R. at Deming, and who was boss of the squatter town on the Texas & Pacific R. R.'s grant, is among the late distinguished arrivals. The Trinidad Times says that if a sufficient number of parties will come Trainmaster Saunders, of Raton, will run a special train from Las Vegas to Trinidad to bring parties who wish to attend the Fourth of July celebration here. It is probable that the Knights of Pythias of this city will not accept the invitation of the Trinidad lodge to celebrate the Fourth in that city. The Las Vegas lodges of Odd Fellows and Knights each have committees appointed to confer as to whether or not the members of those orders shall parade on that day. If the Odd Fellows decide to parade the Knights will join them. J. S. Morgan is in the city and has a desk scheme on foot which is worthy the attention of hotel men. He will put up an elegant hotel in a hotel free of cost provided he will be allowed to use the front above the desk for business cards. The whole will be neatly finished and prove an ornamental and useful piece of furniture. Messrs. Morgan and Jeffers will visit our hotel and business men to-day and discuss the subject. Dr. Ed. Morly came up from the Gallinas Mining district yesterday bringing with him some of the finest copper ores that we have seen in the city. The rock has every appearance of that from the Mogollons, and it is not unlikely that when shafts are down as deep as they are in the vicinity of Clairmont as big assays may be obtained. Two shifts are at work on the brag claim of the district, the "Deadwood," and it is expected that returns as high as fifty ounces in silver and forty per cent. copper to the ton will be secured from the shaft, now down about twenty feet. Work is progressing on the "Pride" and "Red Cloud" claim. The increase in the value of wool makes the woolgrowers who held their wool feel good. The depression was only for a time and was caused by the heavy wool operators in the east, in order to gather up the small clips in the eastern and middle states. After those had been gathered up, the manufacturers had to raise the price in order to induce the large wool growing countries of the west to disgorge. This state of affairs is liable to take place every spring, but not so liable to occur in the fall as sheep in the Eastern States are not clipped in the fall. It would be well for our sheep men to study this question a little. It might save them much money.

## ANOTHER WRECK.

Robert Watts, a brakeman instantly killed—His body buried under the debris.

Yesterday forenoon about 11 o'clock as the freight train No. 109, Conductors W. W. Finley was pulling through what is known as the Ortiz cut, a part of the train was derailed. The place where the accident occurred was about two miles and a half this side of Ortiz station, and a broken wheel caused one car to jump the track dragging fifteen others. The sixteen cars were heavily loaded with coal, iron and ties and were badly smashed up, making a terrible wreck that will require twenty hours to remove. The head brakeman Robert Watts was found to be missing and his body was discovered deep down under the debris. He must have been instantly killed and it was not till late in the afternoon that it was recovered. Mr. Watts had been at work on the line only five days when he was killed, having made his first run on the 25th of June. He was formerly on the L. C. & S. L. R. R. and the boys who had become acquainted with him thought well of him. He has a brother residing in Chicago to whom the sad news was telegraphed also to his father, who lives in Ohio. As soon as the news of the wreck was received here, Train Dispatcher Sharp telegraphed Road Master Bound at Wallace who immediately set out with a wrecking train and a gang of workmen, and they were at once set to work clearing up the wreck. A wrecking car was attached to the Pacific express in this city yesterday noon and a lot of workmen went down. Charlie Dyer, Master of Transportation went down to the scene of the accident. Indian Cussedness. An Indian is a queer animal. Even the alleged civilized ones are full of meanness, and it is bound to crop out. The Pueblos, down the Rio Grande valley, who are supposed to be quite respectable, have recently exhibited symptoms of sheer cussedness. On several occasions Chief Train Dispatcher Sharp has found it impossible to work the wires beyond a point just below Sandia Station, south of Wallace. Communication has thus been interrupted several times during the past two weeks, and no cause could be assigned. Finally one of the line fixers discovered that some of the Pueblo Indians have found it a source of amusement to climb the poles and admire the country. By way of diversion they have chosen to take up with them old wire used in baling hay, and have tested their ingenuity in tying up the wires, bunching them together and entwining the wire around them. Thus a ground connection is made, and this sort of the noble red men occasions not a little inconvenience and is provocative of many cuss words from the operators. We should be found thoroughly in sympathy with Train Dispatcher Sharp did he "send a loving message" to the meddlesome reds in the shape of an electric shock, else break their ground connection. Mail Facilities. James Small, chief clerk of the railway mail service in New Mexico, went down yesterday to attend to mail matters on the El Paso branch. Beginning with to-day the railway service will be put on from Rincon Junction to El Paso. This will be good news to the people of Las Cruces and the Mesilla valley. Heretofore all mails have gone via Deming and from there over the Southern Pacific R. R. to Afton, from which point they have been taken by the mail carrier on horseback or by buckboard. By the old arrangement mails were very irregular, but now good service will be rendered on the branch as well as along the entire length of the A. T. & S. F. system in the Territory. Mr. Small is doing a good work in attending to matters on his division, and is deserving of great thanks for the faithful watch that he keeps over the mails. The Maden Ball. The opening ball of the Hotel Maden in Albuquerque on Wednesday evening was a big social event and a grand success. Nothing was left undone by the Maden Bros., the proprietors, and Mr. H. S. Buntin, the manager, who is kindly remembered by many people in this city, to make it an event long to be remembered. The Albuquerque people turned out in good style, the Atlantic & Pacific railroad boys were out in full force, and there were a number of people from other cities, several going down from Las Vegas. Between two and three hundred people were in attendance including many ladies. A good string band furnished the music and dancing was kept up till an early hour. An excellent champagne supper was furnished. The Maden opens most auspiciously and has a large patronage. Capt. J. J. Fitzgerald, the live real estate man has just issued 10,000 circulars which will be distributed all over the States in the interest of his business particularly and the town and Territory generally. It describes in brief the advantages of the large amount of lands, ranches and town lots in his hands for sale, and the business opportunities awaiting investments.

## PERSONAL.

Judge Bostwick is back again. Col. J. A. Lockhart is at home. Joseph Bush, of Ogden, is in town. Wm. McCarty, of Wisconsin, is in town. R. G. McDonald has gone down to Deming. Hon. Miguel A. Otero left for El Paso yesterday. Hon. Juan Delgado, of Santa Fe, is in the city. A. S. Johnson, of Topeka, is stopping at the Depot Hotel. James B. Cairnes, of Trenton, Mo., is stopping at the St. Nicholas Hotel. G. Hubble, Forest, Ind., and F. Darkington, San Francisco, are stopping at the Sumner House. Benigno Romero and son went down to Bolon and Socorro yesterday. They will be back Sunday. Judge Steele has been quite sick for a few days, and is confined to his bed. He will not be able to get about until the last of the week. Clarence Wells, and C. M. Williams returned from Albuquerque yesterday, and are enthusiastic over the Hotel Maden opening ball. T. B. Murdock, of the Commonwealth, is over from Santa Fe. He has not wholly recovered from his injuries in the wreck of a few days ago. R. Jeffries and wife are at the Depot Hotel. Mr. J. is acting as superintendent of eating houses on the line of the A. T. & S. F. in the absence of Mr. Phillips in Europe. Mrs. S. B. Davis, of the Exchange Hotel, Santa Fe, accompanied by her sister, Mrs. Byington, of Leavenworth, and her son, Sammy Davis, came up from Santa Fe yesterday. Charlie Prindle has resumed his position as night clerk at the Depot Hotel, after a flying trip to Kansas City. He isn't married yet, or at any rate didn't bring back his wife. Frank Moore, the popular conductor in the construction department of the A. T. & S. F., went East yesterday with his wife. They will remain in Sandusky, Ohio, until construction trains begin running on the New Mexico & Arizona R. R., when Mr. Moore will return. Col. A. S. Johnson, land commissioner of the A. T. & S. F. R. R., returned home yesterday after stopping for two weeks at the Hot Springs. The Colonel had heard rumors of the frightfully hot weather in the Kansas metropolis and thought it an economical plan to take his sweating in Topeka rather than pay for it at the Hot Springs. Col. Johnson is very much improved in health by his stay at our wonderful sanitarium, and only leaves on account of pressing business in his office. He is obliged to go to Washington to attend to important matters. His daughter, Mrs. Scott, who went to the Springs to be treated for poisoning from wild ivy, is nearly cured, and will return home on Monday. The Academy Fair. There was a much larger attendance at the Academy Fair at Baco Hall last evening than on the opening night. All the chances in the different articles to be awarded by lot were disposed of, and not a little interest was excited in the allotment of the prizes. The lucky ones were: Easy chair—A. A. Keen. Pickle jar—Dr. E. H. Skipwith. Pair vases—Mace Griswold. Perfume casket—A. A. Keen. Besides these a number of articles of lesser value were drawn. Mrs. R. J. Holmes was the guesser and winner of the cake and ring. Dr. Skipwith donated his prize to the management of the fair and proposed that it be presented to the most popular lady. Voting immediately began to decide this question of popularity, the two favorite candidates being Mrs. J. Rosenwald and Mrs. M. A. Otero. It was unfortunate that voting was not commenced earlier in the evening before people began leaving, but as it was 556 votes were cast during the fifteen minutes that the polls were open. The following were the vote of the leading candidates: Mrs. J. Rosenwald 256. Mrs. M. A. Otero 240. Miss Belle Tents was awarded a beautiful toilet set, according to the returns on the voting for the most popular young lady. The receipts for last evening were considerably in excess of those on Wednesday evening, the several bazaar being liberally patronized. Many new signatures were placed in the autograph album, and the subscriptions to the building fund were consequently increased. During the evening Mrs. Kennedy, Miss Teats and Mr. Gilles Kellogg sang a trio, and Mr. Kellogg sang several solos. Prof. Stone presided at the piano. The literary exercises consisted of recitations, "Ride of Jennie McNeal," Josie Stoops. "Curfew," Ada Allen. "Polish Boy," Bertie Garrard. A fine lot of Corduroy Havana's received yesterday at Marcellino & Boffa's. For putty, boiled linseed oil and window glass, go to the store of C. E. Wesche.

## San Simon District.

Mr. Barlow, financial editor of the New York Herald passed east yesterday on route home. He is just returning from a visit to the San Simon mining district where he has been examining the properties in which he and a number of fellow journalists of New York are interested. Mr. W. H. Henry a year or more ago became interested in several mining properties about Shakespear and associated with him members of the Herald corps and others of his friends. The early part of the year Mr. Henry's father who has had many years experience in the mining districts of the Pacific Slope, went there to look after their interests. Development thus far has clearly indicated that they have deposits worth sinking for, and the company has determined to put in more money and push development. Plans and specifications for a big stamp mill are now being prepared and the company proposes to build the mill at once. The great drawback to Shakespear is lack of water, and the Herald estate has negotiated with a San Francisco man to sink for water. They will put down several wells and will secure enough water for milling or general purposes. This company is doing a grand, good work for the San Simon district and together with the Messrs. Carroll and Mr. Gilmore of the "Superior" company will be instrumental in bringing it out. A commission is being talked of as a new method of letting the mail contracts for the western country. This commission is to consist of three persons. One to be chosen by the post-office department at Washington, a second is to be chosen by the President and is to be a resident of the Territory or State in which the contracts are to be let. These two commissioners are then to choose a third member. These three men then are to meet in the principal city of the territory and open all the bids for mail contracts and determine upon them. This scheme when closely examined is not a bad one. The member of the commission resident in the Territory or State would have an excellent opportunity of showing the wants of the people. He could make himself felt on account of his knowledge of the country. As is shown by the establishment of the new stage route from Las Vegas to Taos it is not the policy of Secretary James to deprive the people of this Territory of mail facilities. But to distribute it more generally over the country and to supply points that have hitherto been without mail service. The advent of railroads and the running of trunk lines through the entire length and breadth of the land has made many changes necessary. Old routes have been cut to pieces by the railroad mail service and therefore new lines will have to be established. The line from this city to Taos is one that is badly needed and has been for some time. It will open up Mora county, one of the richest in the Territory. The country around Taos, rich in mines, will also be supplied by this line. It will supply a greater number of people, with but one or two exceptions, with mail matter than any other of the short lines. HOTEL ARRIVALS. MONDAY. W. B. Duncan, St. Louis; Henry K. Hansel, Watkins, E. L. Hunt, N. Y.; H. H. Wisk, G. Moody, Prescott, A. T.; T. B. Murdock, Topeka; B. Munzer, St. Joe; M. Quigg, Atchison; Mrs. D. Byington, Leavenworth; Mrs. S. B. Davis, San Francisco; Mrs. H. A. De Vries, San Francisco; Mrs. H. A. De Vries, Topeka. ST. NICHOLAS HOTEL. James B. Cairnes, Trenton, Mo.; Wm. McCarty, Wisconsin; A. M. Dettlacher, Santa Fe; R. Armstrong, Tucson; C. E. Foran, Topeka. SUMNER HOUSE. G. Hubble, Forest, Ind.; F. Darkington, San Francisco. NEW DENTAL ROOMS. Of Dr. McGraw. Open July 5th, over Herbert's new drug store, northwest corner of plaza. 6-20-11. Smoke "Billy's Choice" cigars, pure Havana. The place to trade! The place to get excellent bargains for cash! Prices most reasonable! At Isidor Stern's. Stock is fatter now than for two years past. Four kinds of imported macaroni just received at Marcellino & Boffa's. Quite an excitement was created the other day on Centre street. Two gentlemen were walking up the street and noticed that there was quite a crowd of men, twenty ladies more or less, and numerous small boys following them. They turned to ascertain the cause, and found it was the elegant flavor of those Havana cigars obtained at the shooting gallery. Pure Las Vegas honey cheap at Marcellino & Boffa's. Cream lemonade at Billy's.

## Wanted-For Sale-For Rent-Lost.

WANTED—Five hundred men to buy picks and shovels at Marwede, Brumley & Co's. 6-24-11. WANTED—A N. Y. 1 carriage painter immediately. Good wages. 6-27-11.
